fischer Consulting is realigning itself

Professional support from a proven partner

“Effective. Together” is the motto of fischer Consulting. The specialist for lean and efficient processes is part of the fischer Group of Companies, which also includes the renowned fixing systems. The consultancy firm has revised its product portfolio and is presenting itself as an effective and down-to-earth partner in industries where numerous projects have already been successfully completed. fischer Consulting is becoming a central network partner to the industries with its experienced and skilled team of consultants.

fischer Consulting GmbH

72178 Waldachtal

Increasing globalisation, converting to digital processes, the pressure of costs and deadlines and aggressive competition determine today's everyday working life for companies. These conditions present many companies with new challenges, which is where fischer Consulting comes in. The lean experts have successfully been optimising processes in numerous companies and industries since 2004. The company is able to draw on its long-term and comprehensive experience as a proven process optimiser within the fischer Group of Companies.

fischer Consulting identifies problems, develops specific solutions and implements them in the long term beyond functional boundaries. This allows customers of the consulting

firm to increase their process efficiency along the supply chain, therefore preserving their competing power.

Down to earth. Effective. Without a suit and tie.

“Effective. Together” fischer Consulting works together with its customers. Down to earth and on equal terms. Targeted consulting, coaching and training measures increase the team’s efficiency and motivation in the long term. Even in times of upheaval, the experienced consultants support the sustainable implementation of cultural changes within companies through effective change management, among other things.

“You know where – we know how”

Working with fischer Consulting results in measurable process improvements for the customers. Crucial factors such as process discipline, quality, punctuality and cost effectiveness are significantly above their current level. “The tried and tested and innovative products and tools allow us to efficiently support our customers through their challenges. This takes full advantage of the capital while increasing the on-time delivery for the customer”, says Daniel Genkinger, Head of fischer Consulting.

The fischer Group of Companies

The fischer Group of Companies, headquartered in Waldachtal in Germany’s Northern Black Forest, generated sales of 864 million Euros in 2018 with a worldwide staff of 5,200 employees. The family-owned enterprise operates 47 of its companies in 35 countries and exports to more than 100 countries. It

includes the five divisions: fischer fixing systems, fischer automotive systems, fischertechnik, fischer consulting and LNT Automation.

fischer fixing systems is the technological market leader in important areas of fixing technology. fischer offers products that deliver technical perfection to a wide range of customers, from do-it-yourselfers to craftsmen to key account partners.

fischer automotive systems manufactures high-quality parts for car interiors. The company is highly competent in the plastics processing segment and is an important partner for the automotive industry. fischer automotive systems produces air vents, cup holders, trays and multi-function components.

fischertechnik is active both in the construction kit and in the educational toy sector. As one of the last toy makers, fischertechnik develops and produces exclusively in Germany.

fischer consulting evolved from the competence and skills developed in the company itself, among these the fischer ProcessSystem with its central aim of permanent and continuous improvement for the ultimate benefit of the customer. fischer consulting advises small and medium-sized businesses, government agencies and major companies on their way towards lean and efficient processes.

LNT Automation develops and manufactures custom electronic solutions. The company also develops, produces and distributes custom and capacitive touch systems such as multi-touch solutions made of glass and the corresponding controller units. All electronics are manufactured in-house.
