

Ready for any blaze with fischertechnik

## Hot off the press

**Children love to see large fire trucks in action. The JUNIOR line's Easy Starter Fire Trucks allow young fire fighters aged 3 and up to delve into the world of firefighting and rescue vehicles. The variable set up of the fire trucks lets them learn new skills. The fischertechnik Easy Starter Fire Truck costs 44.95 Euro and contains 45 components.**

fischertechnik GmbH

Klaus-Fischer-Straße 1  
72178 Waldachtal

The impressive vehicles appeal due to their child-friendly design and flexible system. Four different models can be built based on the basic vehicle. By applying a few simple turning mechanisms children can make a fire truck with an extendable aerial ladder and a water tank on a twin axle trailer, ready for smouldering fires at dizzying heights.

The water tank, aerial ladder and cable winch can be interchanged on the truck and trailer as required. The remaining push-in and revolving connections offer a highly flexible system that drives off any boredom.

While children are concentrated on playing, they train their motor skills, improve their eye-hand coordination and expand their basic technical understanding. The JUNIOR Line models can be combined with any fischertechnik component.

## **The fischer Group of Companies**

The fischer Group of Companies, headquartered in Waldachtal in Germany's Northern Black Forest, generated sales of 864 million Euros in 2018 with a worldwide staff of 5,200 employees. The family-owned enterprise operates 47 of its companies in 35 countries and exports to more than 100 countries. It includes the five divisions: fischer fixing systems, fischer automotive, fischertechnik, fischer consulting and LNT Automation.

fischer fixing systems is the technological market leader in important areas of fixing technology. fischer offers products that deliver technical perfection to a wide range of customers, from do-it-yourselfers to craftsmen to key account partners.

fischer automotive manufactures high-quality parts for car interiors. The company is highly competent in the plastics processing segment and is an important partner for the automotive industry. fischer automotive produces air vents, cup holders, trays and multi-function components.

fischertechnik is active both in the construction kit and in the educational toy sector. As one of the last toy makers, fischertechnik develops and produces exclusively in Germany.

fischer consulting evolved from the competence and skills developed in the company itself, among these the fischer ProcessSystem with its central aim of permanent and continuous improvement for the ultimate benefit of the customer. fischer consulting advises small and medium-sized businesses, government agencies and major companies on their way towards lean and efficient processes.

LNT Automation develops and manufactures custom electronic solutions. The company also develops, produces and distributes custom and capacitive touch systems such as multi-touch solutions made of glass and the corresponding controller units. All electronics are manufactured in-house.
