Build party games with fischertechnik

Self-built gaming fun for the whole family

The fischertechnik Build your own game construction kit allows you to build eight table and skill games. Add fun to your family evenings with a wheel of fortune, labyrinth, roulette or table top skittles. The construction kit is available from July for 49.90 Euro.

fischertechnik GmbH

Klaus-Fischer-Straße 1
72178 Waldachtal

The fischertechnik Build your own game construction kit contains eight different table and skill games requiring precision, speed and a touch of luck.

The entertainment starts with the set-up, as various table games are created piece by piece with child-friendly instructions, including a roulette game as can often be found in a casino. Once the game has been set up, the roulette ball is set in motion before coming to a stop on a number: "rien ne va plus" ("no further bets"). This is when things get exciting: who will have luck on their side?

Those who have had enough of the game of chance from the casino can swap the roulette wheel against a wheel of fortune, a table top skittle game, a labyrinth and other models. The construction kit contains the respective building blocks and simple instructions, allowing you to set up your own family game night and experience a fun and entertaining evening together.

The construction kit is available for game enthusiasts aged seven and up from July.

The fischer Group of Companies

The fischer Group of Companies, headquartered in Waldachtal in Germany's northern Black Forest, generated sales of 872 million euro in 2020 with a worldwide staff of 5,200 employees. The family-owned company operates 50 subsidiaries in 38 countries and exports to more than 120 countries. It includes the five divisions: fischer fixing systems, fischer Automotive, fischertechnik, fischer Consulting and LNT Automation

fischer fixing systems is the technological market leader in key areas of fixing technology. fischer offers products that deliver technical perfection to a wide range of customers, from do-it-yourselfers to tradespeople to key account partners.

fischer Automotive manufactures high-quality parts for vehicle interiors. The company is highly competent in the plastics processing segment and is an important partner for the automotive industry. Its range of products includes air vents, cup holders, trays and multi-function components.

With its construction kits, fischertechnik is active in both the toymaking and the educational sector. fischertechnik is one of the last remaining toy makers to exclusively develop and produce in Germany.

fischer Consulting evolved from the competence developed in the company itself, which includes the fischer ProcessSystem with its central aim of permanent improvement for the ultimate benefit of the customer. fischer Consulting advises small and medium-sized businesses, government agencies and major companies on their path towards lean and efficient processes.

fischer Electronic Solutions develops and manufactures electronic solutions including product and system developments based on the latest technology as well as custom production orders processed in the company's own production facilities. As an experienced provider of development and production services for custom systems such as multi-touch solutions made of glass and the corresponding controller units, fischer Electronic Solutions forms the perfect link between the customer and the final product.
